

Thank yous:

Mum, Dad and Joe, I appreciate and am grateful for you always being there for me even when I'm not always around. Nic, for the laughter, inspiration and true love. Special thanks to Ying for being so incredibly tasteful, considerate and making sure we have the best coffee! Michael Ross, for your incredible patience, grace and experience. Tim Pierce, for being such a talent and legend — I really respect you and am so grateful that you lent us your talent for the third time. To all the incredible musicians who've worked on this record — Jeff Babko, Alex AI, Charlie Bisharat, Luis Conte, Victor Indrizzo, and Ricky Woodard. This record is dedicated to my Mama and Yeye, who reminded me that no matter how dismal the world may seem... unconditional love exists and endures. —Vanessa

Special thanks from Michael C Ross:

Recording all live and all analog is challenging, especially now. It takes extra effort by a lot of people to make this happen. I would like to thank my assistant engineers, Wes, Cyrus, and Nick for all of the extra help, and everyone at the studios, United, Sphere, and Capitol for going above and beyond. A special thanks to Wes Seidman for making my job easier! Thanks to the musicians! Without great music there is no great sound! Tim Pierce you are the best! Thank you Vanessa for inspiring everyone! It is always fun to watch people's jaw drop when they hear you for the first time! Thank you Ying Tan for coming up with this concept...

Special thanks from Ying Tan:
